 - 2.1.4.1. In consequence, the spending limit of a slate is \$140.
 - 2.1.4.2. In cases of needed financial assistance, candidates may apply for a refund of all campaign expenses.
 - 2.1.4.3. Candidates must provide receipts of their spending at the date and time determined by the ERC.
 - 2.1.4.4. The value of all campaign expenses are to be determined by the members of the ERC. The value of the expense will be associated to the lowest non-discount retail value of the good.
- 2.1.5. Campaign Periods must have a minimum of 5 school days and a maximum of three weekends. The specific duration for Campaign Periods will be determined by the current Chief Electoral Officer of the elections.
- 2.1.6. A social bonding activity must be organized by the Chief Electoral Officer

for the candidates of the same position. Costs will not exceed 25\$ per candidate (tax included) and will be covered by congress.

- 2.1.6.1. A follow up meeting must be organized by the Chief Electoral Officer with the chosen candidates and non-chosen candidates to discuss about possibilities of collaboration with Congress's best interest in mind.

2.2. Winter Elections:

- 2.2.1. The Winter election's Presidential and Vice-Presidential Campaign period must begin at least 4 weeks before the start of the General-Education exam week and the Coordinator Campaign Week must end at least two (2) weeks before the start of the College's General-Education exam week.

Vote tallying will happen in rounds, the first round being voters' first choices, where each round the candidate with the least amount of votes will be eliminated from the count and that candidate's votes will be redistributed to the other candidates based off of second choice, then third, and so forth.

2.4.2.3. In the event of a tie, the elimination of one of the tied candidates will be based on relative ranking per individual MSU student ballot, serving as the tie-breaking method and focusing solely on how one tied candidate compares to the other in each student ballot. For instance, if one student ranked Candidate 1 in second place, and Candidate 2 in fourth, Candidate 1 would win one point because they were ranked higher relative to Candidate 2. This vote-tallying process would continue until all voters' ballots have been considered. The candidate with the least amount of points in this tie-breaking process will be eliminated.

2.4.2.3.1. In the event of a tie that cannot be broken with the previous tie-breaking method, and the tie is not in the final round, the winner of the tie will be determined using an aleatory procedure.

2.4.2.3.3. In the event of an unaccounted elections scenario that is not specified in the Constitution or Congress Bylaws, Congress will call to order an Election Review Board comprised of the ERC members and 6 random MSU students in no less than 5 days to come up with a solution.
