

Dear member of the selection committee,

My name is \_\_\_\_\_. I am a first-year Honours Health Science student, and I am writing this letter to express my interest in the Financial Assistant role within the MSU Congress. I am applying for this position as I have the ability and passion for fulfilling the tasks attributed to this role and getting involved in student life at Marianopolis.

I have always enjoyed being involved in my community. For the entirety of my high school years, I participated in different clubs, committees, and activities that benefited student life. Managing the school's newspaper and participating in the open house sessions helped me acquire additional leadership skills and general knowledge. While volunteering at the newspaper, I experimented with different roles but ultimately fell in love with a role in the paper's finances. I also took part in projects that benefited the community around the school. Last year, I led my class' "Paniers de Noël" initiative and participated in a large-scale capstone project in Yellowknife. In the latter, I had the chance to utilize the experience I have acquired through my involvement in the school's newspaper as director of finances. With the help of a few of my teammates, I managed the finances and many of our fundraising activities. Through this adventure, I made friends with most of my teammates, whom I would not have gotten to know if it wasn't for this project.

At Marianopolis, I want to get as involved as I was in the past years. This would allow me to meet new people and gather valuable experience. As I have come to learn from the sheer number of clubs, Marianopolis has a very active student life and a large community to discover. I am excited to be part of such a dynamic community and would love to contribute to its functioning. Through my involvement in congress and clubs, I wish to connect with other students and keep Marianopolis a school I would be proud to attend.

Few things are more fulfilling than working in a team composed of talented and open-minded people. I have the right amount of experience and teamwork capabilities to assume the role of Financial Assistant within the MSU Congress. I am organized, resilient, and trustworthy. I am determined and ready to work for what I consider essential. These characteristics are crucial for anyone in Congress. Thus, I would like to be a part of what makes Marianopolis a large and energetic community.

Sincerely,

---
